Prof. Noam Chomsky: Statement of Endorsement for the Circles Movement

I have been most impressed with the initiatives of Moji Agha, especially as he has been developing the comprehensive "Circles Movement" project (a.k.a. Circles of Nonviolence/Community Collaboratives Initiative) and with their efforts to engage people to undertake the tasks that must be addressed with dedication and commitment if there are to be hopes of decent survival. And I am pleased to endorse these very valuable policies and actions. (August 3, 2016)
